

Clothes for Easter

We invite you to come, if for no other reason than to look at what we have for Easter. We like to show it; it's the greatest stock of high grade clothes for young men and progressive mature men in the world.

SPECIAL VALUES

Finely tailored silk-lined fast Blue Serge Suits at \$25.00. They'd be generous values at \$35.00. A selection of fabrics from the leading mills; new novelties, weaves and shades in the latest productions are included in this. Special prices at

\$25.00

This is the Boys' Store for WIDOW JONES Knickerbocker Suits.

They lend that trim, well set-up air which denotes the "thoroughbred." Widow Jones clothes make the mediocre figure look manly. The amazing thing about them is how such thoroughly good clothes can be sold at such moderate prices. We do it though.

AVIATOR RODGERS KILLED IN AEROPLANE ACCIDENT

Long Beach, Cal., April 3.—Galbraith P. Rodgers, the first man to cross the American continent in an aeroplane, was killed here almost instantly late today, when his biplane in which he had been soaring over the ocean, fell from a height of 200 feet and buried him in the wreck. His neck was broken and his body badly smashed by the engine of his machine. He lived but a few moments.

Rodgers for a week had been making daily flights here, and had taken up with him many passengers, both men and women. Today he started at the usual place and soared out over the ocean, crossing the pier and then turned and dipped close to a roller coaster in a beach amusement park.

Seeing a flock of gulls disporting themselves among a great shoal of sardines just over the breakers, Rodgers again turned and dived down into them, scattering the seaweed in all directions.

Highly elated with the outcome of his dive, Rodgers then flew further out to sea, all the time gradually rising, until he had reached a height of about 200 feet.

Making a short turn he started at full speed for the pier, then suddenly dipped his planes, and his machine began a frightful descent. Rodgers was seen by hundreds of persons on the pier to relax his hold on the levers, and then, seemingly realizing that he was in danger, he made strenuous efforts to pull the nose of his machine to a level position.

Falling in this, he managed to turn his craft further inshore, and an instant later the craft crashed into the edge of the surf not 500 feet from the spot where, on Dec. 19 last, he had finished his ocean-to-ocean flight. Many men rushed to his aid. Ernest Scott and James Goodwin, life guards were first to reach him. They said Rodgers' head was hanging over one wing of the machine, the heavy engine was on his back and his feet were drawn up, nearly doubling over his shoulder.

Rodgers was lifted from the wreck and hurried to the bathhouse hospital. He died on the way. Examination showed that his neck, jawbone and back had been broken. A telegram was sent to the aviator's widow who lives in Pasadena, Cal., and a cablegram to his mother, Mrs. H. E. Schweitzer, who is now in London. The body was prepared for burial and sent to Pasadena tonight.

TENNESSEANS

Tennesseans. Take Notice! We have had such a demand for "Samelson's Extra," a cigar distributed by a Memphis firm, and smoked by some of our citizens when living in that section, that we recently ordered ONE THOUSAND and they arrived in good condition. This is an excellent 5c Cigar and we want you to try it. The tobacco is the best that money can buy, and we have it from some of the best connoisseurs in this line that

SAMELSON'S EXTRA

is par excellence. Buy it! Try it! We'll make it good!

Money orders paid, \$27,102.70. Money orders issued during year ending March 31, 1912, \$43,266.69. Money orders paid, \$21,523.14.

SUPPOSED DEAD

NEGRO REVIVES

Pauls Valley, Okla., April 3.—A negro by the name of Jim Jeffries shot and killed Lee Shireman, state enforcement officer, here last night. Afterwards the negro was taken away from the officers by a mob and shot twice and was left for dead, but later when they looked for him he was gone. Armed men searched the woods all morning for him and he was found in an old log hut seven miles south of town about noon today. The sheriff's force spirited him out of town to Norman.

Quadruplets Born.

Guthrie, Ok., April 4.—Mrs. J. A. Phalzgraph, wife of a business man of Coyle, this county, gave birth to four boys, each weighing five pounds. The births occurred within ten minutes of each other. All are alive and vigorous and the mother doing well. Mr. Phalzgraph is a cousin of Gov. Judson D. Harmon of Ohio, and he has named the boys Judson, Harmon, "J. D." and Judson-Harmon.

Special Shipping Notice

Applying to Orders on File for
Hoosier Kitchen Cabinets

R. F. SMITH,
Ada, Oklahoma.

DEAR SIR:

Your order for 16 Hoosier Kitchen Cabinets will be filled April 18.

We are extremely sorry that it is necessary for us to ask you to keep your customers waiting, but we believe the satisfaction they get from owning a Hoosier will more than repay them for the annoyance over the delay in shipping.

All the cabinets we can make up to May 1st are sold.

The Saturday Evening Post, Ladies Home Journal and other magazine ads have created the biggest demand on record for Hoosier Kitchen Cabinets during the last sixty days.

A bigger campaign will appear in these magazines in May and June issues.

We are now selling May and June output.

MISSISSIPPI ON A RAMPAGE

WATER HIGHEST EVER KNOWN. SERIOUS FLOODS THREATENED AT MANY POINTS.

Four towns on the Mississippi river are seriously affected by the wall of water, more than 200 miles long and from eight to ten feet higher than official flood stage, surging between bluffs or high banks on one side and levees on the other. The greatest strain to which the levees are subjected covers that portion of the river between Hickman, Ky., and Helena, Ark., but it is gradually creeping southward.

Thirty thousand acres of rich farming land in Jackson county, Illinois, are flooded as the result of the breaking of two levees south of Chester, Ill., yesterday.

This is the flood situation in brief: At Hickman, Ky.: Factory district swamped, 2,000 homeless; business section partly inundated; residence section safe; 1,000 homeless, rescued from Dorena, Mo., community, being cared for; food supply sufficient for three more days. Prompt aid from outside world badly needed to avert calamity. Country about Hickman a practical inland sea. Damage \$150,000 or more.

At Memphis, Tenn.: Eighteen to twenty-five blocks in northern part flooded; 1,200 driven from homes; street car traffic to northern suburbs operating irregularly, under handicap charitable organizations rendering aid to hundreds; gas supply exhausted; water and lighting systems probably safe. Damage \$250,000 or more (conservative estimate).

New Madrid, Mo.: Meager reports; town flooded no loss of life reported; damage not estimated.

Columbus, Ky.: Part of town flooded; residents moving out rapidly; suffering in outlying districts. Damage in vicinity \$100,000 (estimated).

Extent of flood over farm land in Missouri, Kentucky, Tennessee, Arkansas and Mississippi, unprotected by levees, estimated at 300,000 acres or more.

Extent of danger zone over farm land not now being tilled because of fear of levee breaks 900,000 acres (conservative estimate).

Memphis, Tenn., April 3.—Men claimed the advantage in today's battle with the Mississippi river flood. Twelve hours of warm sunshine has aided in the fight and tonight government engineers declare that, with the stage of Memphis not exceeding forty-five feet, the latest estimate, the water will be held within the federal levees.

Indians Want Their Funds.

Washington, April 3.—Richard C. Adams, great sachem of the Brotherhood of North American Indians, wrote to President Taft today requesting that Indians be permitted to withdraw 25 per cent of their individual funds from the banks in which they are deposited in order that they may be applied to get lands in condition for spring crops to purchase implements and supplies. The request was referred to Secretary Fisher, who has written the president as follows:

"Under the present method of handling individual funds the Indians are given every opportunity possible to demonstrate their ability to handle the money. If the superintendent thinks the applicant possesses the requisite ability to judiciously handle his funds without restriction, the funds, in whole or in part, deposited to his credit will be turned over to him. However, from past experience it is known that the issuance of an order allowing all Indians to withdraw large amounts of their individual funds would not best serve the interests of by far the larger number of Indians who are classed as 'incompetents' and who do not have sufficient business judgment to manage their affairs. Purchases for this class of Indians should be made under governmental supervision as heretofore. It is the policy of the department to give every Indian who actually desires to farm every opportunity to use his funds in making necessary preparation."

We note that the miners' union at McCurtain has added its protest to that of the Chickasha Trades Council against the Akin bill. They call the attempt to destroy the state

school of mines a "foul conspiracy" and that's a very good name for it. The politicians who cooked up this Akin scheme to curry favor with the taxpayers are doubtless beginning to realize they are barking up the wrong limb. They were singularly unfortunate when they selected our state school system as the object of their attack. The taxpayers are not as easily deceived as these gentlemen supposed and the friends of education who compose the vast majority of our citizenship are not going to stand idly by when our school system is assaulted.—Chickasha Express.

ADDITIONAL LOCALS.

This morning a motor car en route to Dallas stopped a few minutes at the Frisco depot and was the center of interest to the crowd at the depot. The Frisco will put some of these cars into service between Dallas and Sherman as a means of competing with the Interurban.

The Majestic is always on hand when a good show is what one is looking for. This evening one can get more laughs out of Edison's masterpiece, "What Dreams Are Made of," than he has enjoyed before in a year. Many comical situations. A strong western drama will give one a taste of more solid enjoyment than a play on a real stage.

So well did the Hart, Ashwell and Wilson Trio please its hundreds of patrons during the past three evenings at the new Empress theatre that they have been engaged for the remainder of the week. The large crowds that continue to attend the Empress indicate that it will always be one of the most popular places of amusement ever established in Ada.

EASY AND SURE WAY TO CURE COLDS

Don't Neglect a Cold, Stop It in the
Sneezing Stage—Use Ely's
Cream Balm

A cold generally attacks the weak-
est part, affecting the eyes and ears
in some and producing nasal cat-
arrh and throat troubles in others.
A cold is due to an inflammation of
the membrane lining the air pas-
sages, and may be promptly cured
with Ely's Cream Balm, which im-
mediately removes the inflammation and
all the distressing symptoms, such as
sneezing, coughing, running at the
nose and eyes, hoarseness, sore
throat, fever and headache. One rea-
son why this pure, antiseptic Balm
acts so quickly is because it is ap-
plied directly to the tender, sore sur-
faces.

Even in severe, chronic cases of
catarrh, Ely's Cream Balm never fails
to quickly and effectually check the
poisonous discharge which clogs the
head and throat, causing the disgust-
ing hawking, spitting and blowing of
the nose. This remedy not only
drives out the rottenness, but heals
and strengthens the weakened and
diseased membranes, thus ending cat-
arrh for all time.

Catarrh is a filthy, disgusting dis-
ease. Don't put up with another day.

What is This—

ANSWER

One—the flat, sad, sickly looking one—was baked with poor baking powder; possibly the high-priced kind—possibly the cheap, big can kind. It denotes a lack of leavening gas, or an uneven distribution of same—or both. The other—the large, light, fluffy one—was prepared with Calumet Baking Powder, and denotes the never-failing, delicious baking that always results from its use.

Calumet does not cost as much as the high price baking powder, but it is very much superior in every way—it is purer—more reliable—more healthful. Here are the reasons:

All baking powders undergo a chemical change in the process of baking. You do not take it into the stomach in the same form as it is in the can. For example: When you use Cream of Tartar Baking Powder you get Rochelle Salts in your food, because the Cream of Tartar during this reaction turns into Rochelle Salts. This, as you know, is a drug, and should be taken only under doctor's orders.

Calumet is so carefully and scientifically prepared that the neutralization of the ingredients is absolutely perfect.

That it is absolutely pure and of highest quality is proven by the fact that

MOISANT AVIATORS GIVE EXHIBITION AT TYLER

Tyler, Tex., April 3.—Thousands of people witnessed the first day's flight of a two days' series here this afternoon by the Moisant International Aviators of New York. The flights took place in the fair grounds, one mile south of the city. Trains

brought large crowds from all directions, and all available standing space was occupied. There were two flights by Monsieur Andrew Houpert and one by Miss Mathile Moisant. The Moisant monoplane was used. The first machine was retired to the hanger on account of a defect in the motor, and the machine that was

used by Miss Moisant during her recent flights in Dallas was used. Miss Moisant reached an altitude of over 2,000 feet while Houpert went nearly 4,000 feet. He flew two or three miles across the city and made the most spectacular flight of the event. Miss Moisant did some fancy work, waving her hand at the thousands as she flew across the aviation grounds. There was great enthusiasm as the flyers landed, and cheer after cheer greeted them. This is the first aviation meet ever held in this city, and many thousands are expected to arrive in the city tonight and tomorrow for the meet in the afternoon.

The international aviators came direct from Dallas to Tyler, and this is their second flight in Texas. Miss Moisant said this would probably be her last professional engagement, for she expected to go direct to her home in New York City from Tyler. Three flights will be made tomorrow by Signor Francisco Alvarez, joining Miss Moisant and Monsieur Houpert. The meet is being given under the auspices of the Tyler Commercial Club.

THE PEOPLE WHO PUT THE PRICE DOWN

WILL DECIDE ROUTE TO MACON REUNION

The Confederate Veterans are preparing for a rousing meeting at the court house Sunday afternoon at 2:30. With the largely increased enrollment of the Sons, it is believed that a great many of them will also be present at the meeting and that a lively interest will be shown throughout.

At this meeting traveling passenger agents of several lines of railroads will be present to discuss with the veterans the question of routes and rates to the Macon reunion in May. A number will likely go from Ada, as it is understood that the rates will be low and everything else reasonable.

Notice, Owners of Dogs.

You are hereby notified to call and pay to me the tax on your dogs at once. In a few days I shall begin killing all dogs found on the streets without a tag.

DEMOCRATS WILL MEET AT ROFF FRIDAY EVENING

Tomorrow evening a number of democrats will take the train for Roff where a rousing meeting of the Young Men's Democratic Club will be held. A feature of the meeting will be a debate on the question of electing federal judges. In view of the number going down it is thought that arrangements can be made to have the Hustler stopped and thus enable all to return home at midnight. It is believed that the officials will grant this request, but it may not be definitely known until tomorrow.

WHY not give your lad the same training?

"When I was a growing lad, and came upon many words in my reading that I did not understand, my mother, instead of giving me the definition when I applied to her, uniformly sent me to the dictionary to learn it, and in this way I gradually learned many things besides the meaning of the individual word in question—among other things, how to use a dictionary, and the great pleasure and advantage there might be in the use of the dictionary. Afterwards, when I went to the village school, my chief diversion, after lessons were learned and before they were recited, was in turning over the pages of the 'Unabridged' of those days. Now the most modern Unabridged—the NEW INTERNATIONAL—gives me a pleasure of the same sort. So far as my knowledge extends, it is at present the best of the one-volume dictionaries, and quite sufficient for all ordinary uses. Even those who possess the splendid dictionaries in several volumes will yet find it a great convenience to have this, which is so compact, so full, and so trustworthy as to leave, in most cases, little to be desired."—Albert S. Cook, Ph.D., LL.D., Professor of the English Language and Literature, Yale Univ. April 28, 1911.

R. & R. SHOE STORE OPEN FOR BUSINESS

The R. & R. "Selz-Royal Blue" shoe store opened its doors to the public today and enjoyed a good run of trade and received many visitors, who went in to inspect the fine stock of shoes carried by the new firm. Everywhere one looked his eye was confronted with the Selz brand of celebrated shoes. To each visitor a carnation was given as a souvenir of the occasion.

The new store is located in the Ladies Specialty store building at 112 East Main.

NOTED FRENCHMAN TO VISIT AMERICA

Washington, D. C., April 4.—Official circles in the national capital are looking forward with great interest to the impending visit to this country of a delegation of distinguished Frenchmen who will be the bearers of a national gift of friendship from the French Republic to the United States, consisting of Auguste Rodin's bust of "La France." This magnificent bronze bust will be presented to the United States as a token of France's friendship and is to be placed at the base of the monument which will be dedicated in June to Samuel de Champlain, French navigator and explorer, the tercentenary of whose discovery of Lake Champlain was celebrated in 1909.

The delegation will be headed by M. Hanotaux, former Foreign Minister of France and member of the French Academy, and will visit New York, Washington, Philadelphia, Boston, Lake Champlain, Montreal, Quebec and Niagara Falls, delivering addresses voicing the gratitude of France for the numerous manifestations of friendship by the United States. The delegation will sail for New York on the new steamship France of the French line, which will start on its maiden voyage on April 29.

What makes this official visit of especial interest is the fact that the delegation is headed by M. Hanotaux who is considered one of the most brilliant statesmen of France and believed to be destined to become President of the Republic at some time in the near future. M. Hanotaux was

GOOD NEWS S.S.S. CURES OLD SORES

To every person suffering with an old sore or chronic ulcer, the very best news in this paper is contained in the present article. It is good news because it is true; it tells of a way to get rid of these plague spots which so often sap the strength and vitality, and best of all, this permanent cure is in reach of every one.

It is an absolutely true statement to say that every old sore or chronic ulcer exists solely because of bad blood. Outside contaminations or influences may increase the local inflammation, but such things have nothing to do with keeping the place open. It is the infected blood discharging its impurities through a weak spot on the flesh that does this, and the sore will continue, gradually growing worse, until the blood is purified of the exciting cause.

See how nature points to the cause through the symptoms. The inflammation, discharge, discolored flesh, and the fact that external applications never have any curative effect on the sore, show that deep down in the circulation there is a morbid cause which prevents the place from healing. But more convincing proof that bad blood is responsible for old sores, is furnished by the fact that even removing every visible trace of the ulcer by surgical operation does not cure; the sore always returns.

S. S. S. heals old sores because it is the greatest of all blood purifiers; it goes into the circulation and removes the cause from the blood. When the blood has been purified there is no longer any inflammatory or infectious matter to irritate the place and nature causes a natural and certain healing of the ulcer. When S. S. S. has cleansed the circulation and the place is well, it is not a surface cure, not simply a smoothing over of the outward evidence, but it is a perfect and permanent cure, because every vestige of the old cause has been driven out. S. S. S. is made entirely of roots, herbs and barks, cleansing and invigorating in their nature, and of great tonic value. It is a medicine adapted to persons of any age, and is just as effective with the old as with the young or middle aged. Under the purifying and tonic effects of S. S. S. the system is greatly strengthened and benefited. To hear of S. S. S. has been good news to thousands, it is good news for you.

If you wish any special advice about an old sore or ulcer write for our free book, and ask our medical department to give any instructions you may feel the need of. No charge for the book or advice. S. S. S. is sold at drug stores.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

born at Beaufort, a village near St. Quentin, France, on November 19, 1857. His grandfather was a peasant and his father was a notary and small landowner. After Gabriel had completed his studies at the Lycee St. Quentin, he went to Paris to study law and entered the school of Chartiers. He showed intense interest in the study of his history and won distinction by a thesis he wrote dealing with the time of Richelieu.

Henri Martin, the historian, who was a cousin of Gabriel Hanotaux's father, took the young man to Gambetta who was then at the height of his power. Gambetta obtained for him an appointment in the archives of the ministry of foreign affairs and also encouraged him to write on various subjects of a historical and political character for La Republique Francaise, the paper which Gambetta had founded and which he still controlled. Hanotaux soon became chief clerk in the department of archives and also was appointed professor at the Ecole des Hautes Etudes.

When Gambetta became premier, he

made Hanotaux sub-chief in his cabinet. In 1889 Hanotaux was appointed counselor to the embassy of France at Constantinople under the Marquis de Noailles. In the following year he was made "sub-director of the Protectorates," and in 1892 he was placed in charge of the office of Consular and Commercial affairs. From that position he was elevated to the position of minister of foreign affairs, which he held through a number of administrations.
